## HOME DESCRIPTION

Ideally located on a quiet cul-de-sac, this popular Telfair floorplan offers a rare opportunity--only select homesites can accommodate the additional two-car detached garage alongside the attached two-car garage.

This highly sought-after configuration is perfect for extra vehicles, storage, or a private workshop.

The main level features an upgraded kitchen with a large center island and eat-in nook, opening seamlessly to the spacious family room for effortless entertaining. A flexible main-floor room provides the perfect space for a home office, gym, or hobby room.

Upstairs, the expansive primary suite delivers a true retreat with a spa-inspired bath and oversized walk-in closet. Three additional bedrooms, a generous loft, and a centrally located laundry room complete the second floor.

Designed for modern living, this home pairs a rare garage setup with a prime cul-de-sac location--making it both functional and hard to find.
